Drum and container pumps

Pump kits 5-10

JUNIORFLUX / COMBIFLUX (series 300) and accessories 11-14

For low volumes

F 310 with mechanical seal, F 314 sealless

Motors and accessories 15-20

Commutator motors FEM 4070, F 457, F 458, F 460 Ex

Brushless motor FBM 4000 Ex

Three-phase gear motor F 414

Air-operated motors F 416 Ex, F 416-1 Ex, F 416-2 Ex

Drum and container pumps (series 400) 21-26

F 424 the sealless, F 425 for 99,98 % drum emptying

F 426 the mixing pump, F 427 can be taken apart completely

F 430 with mechanical seal, drum pumps in special lengths

Accessories 27-40

Hose connections, hose couplings,

swaged hose fittings, hose kits,

hoses, 1-Ear hose clips,

hand nozzles, discharge unit, fume glands,

compression glands, outlet tubes, discharge spouts,

suction strainers, attachment clamps,

mixing tubes, flow back stop valves,

accessories in FOOD version

Progressive cavity pumps, motors and accessories 41-52

Progressive cavity pumps F 570 and F 580

Progressive cavity pumps horizontal / for dry installation (TR)

Accessories and accessories in FOOD version

Tools for assembly/disassembly

VISCOFLUX drum emptying systems 53-58

Flow meters with FLUXTRONIC® and accessories 59-71

Nutating disc type FMC 100, FMJ 100, FMC 250

Oval rotor type FMO 101 – FMO 150

Centrifugal immersion pumps, motors and accessories 75-80

F 620 and F 640

F 706, F 716, F 726

Air-operated diaphragm pumps and accessories

Solid construction 81-86

RFM 10, RFML 10, RFM 15, RFML 15,

RFM 25, RFML 25, RFM 40

Certificates and conformities

Certificates and Conformities

The right solution for every industry

Certified safety for the most widest range of industries and countries: FLUX products have been developed and certified for use around the world; they comply with the highest demands and safety standards. With FLUX you are always on the safe side everywhere.

<p>All FLUX products conform to pertinent fundamental health & safety regulations of the EC Machinery Directive 2006/42/EC and are therefore CE certified. In addition, FLUX products bear the Eurasian EAC mark issued by the customs union of Russia/Belarus/Kazakhstan.</p>	
<p>Dependent on version, FLUX motors are available with VDE GS, UL or also CSA test certification.</p>	
<p>For usage in pharmaceutical, food and cosmetics industries there are the following products available:</p> <ul style="list-style-type: none"> • pumps with 3A certification • FLUX FOOD pumps conform to EC 1935/2004, suitable for contact with food • products conform to FDA CFR 21 	
<p>For usage in hazardous areas there are FLUX products available with explosion protection, built and certified according to ATEX Directive 2014/34/EU.</p>

Pump kits

Pump kit "JUNIORFLUX" for low volumes

Pump with fixed motor

drum pump in polypropylene, sealless, with hastelloy C shaft, **commutator motor F 310**, 230 V, 50-60 Hz, 230 watt (with integral motor) and hand nozzle PP

- JUNIORFLUX **F 314 PP-25/19** PVC hose DN 13, 1,5 m long

	immersion length	part no.
for canister emptying	700 mm	10-314 43 007
for drum emptying	1.000 mm	10-314 43 010

- JUNIORFLUX **F 314 PP-32/25** PVC hose DN 19, 1,5 m long

	immersion length	part no.
for drum emptying	1.000 mm	10-314 44 010

Pump kit "JUNIORFLUX AdBlue®" * for low volumes

drum pump JUNIORFLUX **F 314 PP/S-32/25** in polypropylene, with stainless steel shaft, sealless, **commutator motor F 310**, 230 V, 50 Hz, 230 watt (with integral motor), PVC hose DN 19, 2 m with hand nozzle PP AdBlue® * version with small outlet Ø 19 mm

	immersion length	part no.
for drum emptying	1.000 mm	10-314 44 ZV2

Pump kit "COMBIFLUX" for low volumes

with removable battery motor

drum pump in polypropylene, sealless, hastelloy C shaft, brushless DC, **battery motor FBM-B 3100**, includes 18 V Li-Ion battery, charger 220-240 V, 50-60 Hz, with hand nozzle PP

- COMBIFLUX **FP 314 PP-25/19**, PVC hose DN 13, 1,5 m long

	immersion length	part no.
for canister emptying	700 mm	10-314 48 807
for drum emptying	1.000 mm	10-314 48 810

- COMBIFLUX **FP 314 PP-32/25**, PVC hose DN 19, 1,5 m long

	immersion length	part no.
for drum emptying	1.000 mm	10-314 49 910

Pump kit „COMBIFLUX AdBlue®" * for low volumes

with removable battery motor

drum pump COMBIFLUX **FP 314 PP/S-32/25** in polypropylene with stainless steel shaft, sealless, brushless DC **battery motor FBM-B 3100**, includes 18 V Li-Ion battery, charger 220-240 V, 50-60 Hz, PVC hose DN 19, 2 m long with hand nozzle PP AdBlue® * version with small outlet Ø 19 mm

	immersion length	part no.
for drum emptying	1.000 mm	10-314 49 ZV2

* AdBlue® is a registered trademark of: Verband der Automobilindustrie e. V. (VDA)

Pump kits about series F 400

Pump kit “acids and alkalis”

drum pump in polypropylene with hastelloy C shaft, **commutator motor FEM 4070**, 230 V, 50 Hz, 500 watt with speed control and no-volt-release, PVC hose DN 19, 2 m long with hand nozzle in PP and compression gland PP (G 2" male)

- drum pump **F 430 PP-40/33** with mechanical seal, seal material FKM

	immersion length	part no.
for drum emptying	1.000 mm	10-407 40 010
for IBC emptying	1.200 mm	10-407 40 012

- drum pump **F 424 PP-41/36** sealless

	immersion length	part no.
for drum emptying	1.000 mm	10-407 44 010
for IBC emptying	1.200 mm	10-407 44 012

Pump kit “concentrated acids”

drum pump **F 430 PVDF-40/33** in polyvinylidene fluoride with hastelloy C shaft, mechanical seal, seal material FKM, **commutator motor F 458**, 230 V, 50 Hz, 460 watt with no-volt-release, chemical hose DN 19, 2 m long with hand nozzle in PVDF, compression gland PP (G 2" male)

	immersion length	part no.
for drum emptying	1.000 mm	10-458 60 010
for IBC emptying	1.200 mm	10-458 60 012

Pump kit “FES 800” for the transfer of cleaning and disinfecting agents

drum pump **F 424 PP-41/36** in polypropylene with hastelloy C shaft, sealless, with FLUX fume gland (FES), **commutator motor FEM 4070**, 230 V, 50 Hz, 500 watt, with speed control and no-volt-release, PVC hose DN 19, 2 m long and hand nozzle PP

	immersion length	part no.
for 60 litre containers	800 mm	10-407 44 208

Pump kit “AdBlue®” * for IBC emptying

container pump **F 424 PP/S-41/35 Z** in polypropylene with stainless steel shaft, sealless, **commutator motor FEM 4070**, 230 V, 50 Hz, 500 watt, with speed control and no-volt-release

- with PVC hose DN 19, 3 m long, with hand nozzle in PP and compression gland PP (G 2" male)

	immersion length	part no.
for IBC emptying	1.200 mm	10-407 44 112

- with special hose DN 16, 6 m long, with **hand nozzle with auto-stop function** in AL and compression gland PP (G 2" male)

	immersion length	part no.
for IBC emptying	1.200 mm	10-407 41 ZV6

* AdBlue® is a registered trademark of: Verband der Automobilindustrie e. V. (VDA)

Pump kits

Pump kit "petroleum products"

drum pump **F 430 AL-41/38** in aluminium with stainless steel shaft, mechanical seal, seal material NBR, petroleum hose DN 25, 2 m long, hand nozzle AL and compression gland PP (G 2" male)

- with **commutator motor FEM 4070**, 230 V, 50 Hz, 500 watt with speed control and no-volt-release

	immersion length	part no.
for drum emptying	1.000 mm	10-407 10 010
for IBC emptying	1.200 mm	10-407 10 012

- with **commutator motor F 457**, 230 V, 50 Hz, 800 watt, with no-volt-release

	immersion length	part no.
for drum emptying	1.000 mm	10-457 10 010
for IBC emptying	1.200 mm	10-457 10 012

Pump kit "highly flammable liquids"

drum pump **FP 424 Ex S-43/38** for applications in Zone 0, Ex-marking II 1/2 G Ex h IIB T4...T3 Ga/Gb, in stainless steel with stainless steel shaft, sealless, 2 m earth wire, universal hose DN 21, 2 m long, electrically conductive with brass hose fittings and hand nozzle in brass, compression gland PP electrically conductive (G 2" male)

- with **commutator motor F 460 Ex**, 230 V, 50 Hz, 460 watt, with no-volt-release for applications in Zone 0, Ex-marking II 2 G Ex db eb IIC T6 or T5 Gb

	immersion length	part no.
for drum emptying	1.000 mm	10-460 24 010
for IBC emptying	1.200 mm	10-460 24 012

- with **commutator motor F 460 Ex EL**, 230 V, 50 Hz, 460 Watt, with no-volt-release, with electronic speed adjustment for use in zone 1, Ex marking II 2 G Ex db eb IIC T6 resp. T5 Gb

	immersion length	part no.
for drum emptying	1.000 mm	10-460 24 110
for IBC emptying	1.200 mm	10-460 24 112

- with **compressed-air motor F 416 Ex**, 470 watt at 6 bar for applications in Zone 0, Ex-marking II 2G Ex h IIC T6 Gb

	immersion length	part no.
for drum emptying	1.000 mm	10-416 24 010
for IBC emptying	1.200 mm	10-416 24 012

Pump kit "99,98 % drum emptying"

drum pump **FP 425 Ex S-41/34** for applications in Zone 0, Ex-marking III 1/2 G Ex h IIB T4...T3 Ga/Gb, in stainless steel with stainless steel shaft, mechanical seal (FKM), 2 m earth wire, universal hose DN 21, 2 m long electrically conductive with stainless steel hose fittings and hand nozzle, compression gland PP electrically conductive (G 2" male)

- with **commutator motor F 460 Ex**, 230 V, 50 Hz, 460 watt with no-volt-release for applications in Zone 1, Ex-marking II 2 G Ex db eb IIC T6 or T5 Gb

	immersion length	part no.
for drum emptying	1.000 mm	10-460 25 010
for IBC emptying	1.200 mm	10-460 25 012

Pump kit “universal applications”

drum pump **F 430 S-41/38** in stainless steel, for applications in Zone 0, Ex-marking II 1/2 G IIB T4 with stainless steel shaft, mechanical seal (FKM), 2 m earth wire, universal hose DN 21, 2 m long electrically conductive with stainless steel hose fittings and hand nozzle, compression gland PP electrically conductive (G 2" male)

- with **commutator motor F 460 Ex**, 230 V, 50 Hz, 460 watt with no-volt-release for applications in Zone 1, Ex-marking II 2 G Ex db eb IIC T6 or T5 Gb

	immersion length	part no.
for drum emptying	1.000 mm	10-460 20 010
for IBC emptying	1.200 mm	10-460 20 012

- with **compressed-air motor F 416 Ex**, 470 watt at 6 bar for applications in Zone 1, Ex-marking II 2G Ex h IIC T6 Gb

	immersion length	part no.
for drum emptying	1.000 mm	10-416 20 010
for IBC emptying	1.200 mm	10-416 20 012

Pump kit MINIFLUX

drum pump **MINIFLUX S-41/38-136** in stainless steel with stainless steel shaft, mechanical seal FKM, PVC hose DN 19, 2 m long, hand nozzle PP

- with **commutator motor FEM 4070**, 230 V, 50 Hz, 500 watt with speed control and no-volt-release

	part no.
for IBC emptying	10-407 29 000

Pump kit “fire brigade”

drum pump **F 430 PP-40/33** in polypropylene with hastelloy C shaft, mechanical seal, seal material FKM

- with **commutator motor F 458**, 24 V DC, 410 watt, PVC hose DN 19, 2 m with hand nozzle PP

	immersion length	part no.
for drum emptying	1.000 mm	10-458 40 610

Pump kit “fire brigade” for industrial applications up to 25.000 mPas

Progressive cavity pump **VISCOPOWER F 570 1200 FKM** FKM SP TS R52 PTFE G16 F 570 planetary gear, with ratio 1:16 torsion shaft, in stainless steel, with open mechanical seal, seal made of FKM, outer Ø 53 mm, connection Clamp 2“, food and chemical hose DN 32, 2,5 m long, discharge spout in stainless steel

- with **commutator motor F458-1**, 230 V, 700 Watt, IP 55, with no-volt release

	immersion length	part no.
or drum emptying	1.200 mm	10-458 90 004

Pump kits

Pump kit for food and pharmaceuticals

FP 427 S-43/38 FOOD drum pump in stainless for contact with food in accordance with (EC) 1935/2004 and FDA CFR 21

Sealless, materials in contact with medium in stainless steel, PTFE, FKM, outer tube diameter 43 mm, 1 1/2" clamp connection, food hose DN 25, 2 m long, with hose fittings and hand nozzle in stainless steel, compression gland PP (G 2)

- with **commutator motor F 458**, 230 Volt, 50 Hz, 460 Watt, IP 55 with no-volt release, with special sealing for extreme usage conditions

	immersion length	part no..
for drum emptying	1.000 mm	10-458 27 610
for IBC emptying	1.200 mm	10-458 27 612

Pump kit for food and pharmaceuticals in Ex version

FP 430 Ex FOOD S-41/38 drum pump in stainless for contact with food in accordance with (EC) 1935/2004 and FDA CFR 21

Ex marking II 1/2 G IIB T4, for use in zone 0

With mechanical seal in oxide ceramics, PTFE/carbon, seals in FKM, shaft and rotor in stainless steel 316 Ti, outer diameter 41 mm, 1 1/2" clamp connection food hose DN 19, 2 m long, with hose fittings and hand nozzle in stainless steel, compression gland PP (G 2)

- with **commutator motor F 460 Ex**, 230 Volt, 50 Hz, 460 Watt, Ex marking II 2 G Ex db eb IIC T6 Gb with no-volt release

	immersion length	part no..
for drum emptying	1.000 mm	10-460 20 510
for IBC emptying	1.200 mm	10-460 20 512

Pump kit for food and pharmaceuticals up to 25.000 mPas

Progressive cavity pump VISCOPOWER

F 570 FOOD FKMc FKM SP TS R33 PTFE G16

for contact with food in accordance with (EC) 1935/2004 and FDA CFR 21 F 570 planetary gear, ratio 1:16, torsion shaft, in stainless steel, with closed mechanical seal, seals made of FKM, outer Ø 53 mm, connection Clamp 2", stator material PTFE, food hose DN 25, 2.5 m long, with hose fittings and discharge spout in stainless steel, compression gland PP (G 2)

- with **commutator motor F 458-1**, 230 Volt, 50 Hz, 700 Watt, IP 55, with no-volt release, connection cable 5 m

	immersion length	part no..
for drum emptying	1.000 mm	10-458 90 002
for IBC emptying	1.200 mm	10-458 90 003

Pump kit for industrial applications up to 30.000 mPas

Progressive cavity pump VISCOPOWER

F 570 FKMo FKM SP TS R33 PTFE G16

F 570 planetary gear, ratio 1:16, torsion shaft, in stainless steel, with closed mechanical seal, seals made of FKM, outer Ø 53 mm, connection Clamp 2" with adapter on G 1 1/2" external thread, stator material PTFE, food hose DN 32, 2.5 m long, with hose fittings and discharge spout in stainless steel, compression gland PP (G 2)

- with **commutator motor F 457**, 230 Volt, 50 Hz, 800 Watt, with splash water protection IP 24, with no-volt release, 5 m connection cable

	immersion length	part no..
for drum emptying	1.000 mm	10-457 90 002
for IBC emptying	1.200 mm	10-457 90 003

JUNIORFLUX/COMBIFLUX (series 300)

for low volumes

JUNIORFLUX (series 300)

with integral motor

F 300

JUNIORFLUX F 310 with mechanical seal, in polypropylene with hastelloy C shaft

seal in FKM, G1" male discharge connection with **commutator motor F 310**, 230 V, 50 Hz, 230 watt, splash-proof to IP 24. Without hose connections. PP-25 suitable for narrow openings < 32 mm.

- **F 310 PP-25/19**

immersion length	part no.
500 mm	10-310 41 005
700 mm	10-310 41 007
1.000 mm	10-310 41 010

- **F 310 PP-32/25**

immersion length	part no.
500 mm	10-310 42 005
700 mm	10-310 42 007
1.000 mm	10-310 42 010

JUNIORFLUX F 314 sealless, with hastelloy C shaft

G1" male discharge connection with **commutator motor F 310**, 230 V, 50 Hz, 230 watt, splash-proof to IP 24. Without hose connections. PP-25 and PVDF-25 models suitable for narrow openings < 32 mm. Not recommended for small solids, abrasive or crystallising liquids.

- **F 314 PP-25/19** in polypropylene

immersion length	part no.
500 mm	10-314 41 005
700 mm	10-314 41 007
1.000 mm	10-314 41 010

- **F 314 PP-32/25** in polypropylene

immersion length	part no.
500 mm	10-314 42 005
700 mm	10-314 42 007
1.000 mm	10-314 42 010

- **F 314 PVDF-25/19** in polyvinylidene fluoride

immersion length	part no.
500 mm	10-314 61 005
700 mm	10-314 61 007
1.000 mm	10-314 61 010

JUNIORFLUX F 314, sealless, in stainless steel, with stainless steel shaft

G 3/4" male discharge connection with **commutator motor F 310**, 230 V, 50 Hz, 230 watt, splash-proof to IP 24, without hose connections. Not recommended for abrasive or crystallising liquids.

- **F 314 S-28/25**

immersion length	part no.
500 mm	10-314 21 005
700 mm	10-314 21 007
1.000 mm	10-314 21 010

Hose connection see page 14

COMBIFLUX (series 300)

with separate motor

Drum pump FP 314, sealless, combined with commutator motor (FEM 3070) or battery motor (FBM-B 3100).
Not recommended for small solids, abrasive or crystallising liquids.

COMBIFLUX FP 314, sealless pump

- **FP 314 PP-25/19** in polypropylene with **hastelloy C shaft**, G 1" male discharge connection. Without hose connections

immersion length	part no.
500 mm	10-314 45 905
700 mm	10-314 45 907
1.000 mm	10-314 45 910

- **FP 314 PVDF-25/19** in polyvinylidene fluoride with **hastelloy C shaft**, G 1" male discharge connection. Without hose connections

immersion length	part no.
500 mm	10-314 65 905
700 mm	10-314 65 907
1.000 mm	10-314 65 910

- **FP 314 PP-32/25** in polypropylene with **hastelloy C shaft**, G 1" male discharge connection. Without hose connections

immersion length	part no.
500 mm	10-314 46 905
700 mm	10-314 46 907
1.000 mm	10-314 46 910
1.200 mm	10-314 46 912

- **FP 314 S-28/25** in stainless steel with **stainless steel shaft**, G ¾" male discharge connection. Without hose connections

immersion length	part no.
500 mm	10-314 26 905
700 mm	10-314 26 907
1.000 mm	10-314 26 910
1.200 mm	10-314 26 912

F 300

Drive motors suitable for COMBIFLUX FP 314

- **commutator motor FEM 3070**, 230 watt, splash-proof to IP 24 with 5 m cable and plug

	part no.
230 V, 50-60 Hz	10-307 01 000
240 V, 50 Hz	10-307 01 001
120 V, 60 Hz	10-307 01 002
110 V, 50-60 Hz	10-307 01 003
100 V, 50-60 Hz	10-307 01 004

- **brushless DC battery motor FBM-B 3100**, with electronic temperature control, splash-proof to IP 44, includes Li-Ion 18 V, 2.5 Ah battery

	part no.
with charger 220-240 V, 50-60 Hz	10-301 01 000
with charger 100-120 V, 50-60 Hz	10-301 01 003
without charger	10-301 01 001

Accessories for battery motor FBM-B 3100

- **battery without charger**, type Li-ion, 18 V, 2,5 Ah

	part no.
B25-3100	10-301 02 002

- **charger without battery**, BCH-3100, 50-60 Hz

	part no.
220-240 V	10-301 02 003
100-120 V	10-301 02 004

Hose connection see page 14

Accessories

JUNIORFLUX/COMBIFLUX (series 300)

F 300

hand nozzle MS
(see page 34)

hose kit

Hose kits with G 1¼" female drum pump connectors

and connection to **stainless steel hand nozzle** part no. 10-001 12 549 with connection Ø 28 mm, electrically conductive with swaged hose fitting in aluminium nickel-plated

- universal hose kit

	length	part no.
DN 21	2 m long	10-001 10 870
	3 m long	10-001 10 871

- hose kit for food and chemistry

	length	part no.
DN 19	2 m long	10-001 10 873
	3 m long	10-001 10 874
DN 25	2 m long	10-001 10 868
	3 m long	10-001 10 869

hand nozzle S
(see page 34)

hose kit

Hose lines with hand nozzle with G 1 1/4" female connection to drum pump

- with **hand nozzle PP** (part no. 10-001 12 500 with FKM seal, 10-001 12 506 with EPDM seal), PVC- hose DN 19, 2 m, hose connection PP

seal	part no.
FKM	10-001 10 813
EPDM	10-001 10 847

- with **hand nozzle AL** (part no. 10-001 12 172), petroleum hose DN 25, 2 m, hose connector aluminum, union nut brass

seal	part no.
NBR	10-001 10 815

- with **hand nozzle MS** (part no. 10-001 12 340), universal hose DN 21, 2 m, hose connector brass, bracket clamp AL nickel-plated, electrically conductive integrated

seal	part no.
PTFE	10-001 10 845

- with **handn nozzle PVDF** (part no. 10-001 12 558), hose for food and chemistry DN 19, 2 m, hose connector PVDF, bracket clamp AL nickel-plated

seal	part no.
FKM	10-001 10 814

- with **hand nozzle S** (part no 10-001 12 549), universal hose DN 21, 2 m, hose connector S, bracket clamp AL nickel-plated, electrically conductive integrated

seal	part no.
PTFE/FEP	10-001 10 872

Hose lines with hand nozzle FOOD with 1 1/2" Clamp connection

- with **hand nozzle S** (part no. 10-001 12 568), food hose DN 25, 2 m, hose connector S

seal	part no.
FKM	10-001 10 898

- with **hand nozzle S** (part no. 10-001 12 568), hose for food and chemistry DN 19, 2 m, hose connector S, electrically conductive integrated

seal	part no.
FKM	10-001 10 899

Hoses without inliner

for use with hose connections or swaged hose fittings

- PVC hose** with fabric lining
also suitable for food contact according to Regulation (EC) 1935/2004

	operating pressure max.	part no.
DN 13 outer Ø 20 mm	10 bar	10-001 10 008

- PVC hose with steel wire-helix**
also suitable for food contact according to Regulation (EC) 1935/2004

	operating pressure max.	part no.
DN 19 outer Ø 27 mm	5 bar	10-001 10 040
DN 25 outer Ø 33 mm	5 bar	10-001 10 041
DN 32 outer Ø 41 mm	4,5 bar	10-001 10 042
DN 38 outer Ø 47 mm	4 bar	10-001 10 043
DN 50 outer Ø 60 mm	3 bar	10-001 10 044

- petroleum hose**
electrically conductive Ω to EN 12115:2011
material inside: NBR black

	operating pressure max.	part no.
DN 13 outer Ø 21 mm	10 bar	10-001 10 076
DN 19 outer Ø 27 mm	10 bar	10-001 10 065
DN 25 outer Ø 34 mm	10 bar	10-001 10 002

electrically conductive Ω/T to EN 12115:2011
material inside: NBR black

	operating pressure max.	part no.
DN 32 outer Ø 44 mm	25 bar	10-001 10 003
DN 38 outer Ø 51 mm	25 bar	10-001 10 004

Accessories

for drum and container pumps, series 400

- special food-grade hose**

suitable for food contact according to Regulation (EC) 1935/2004 and FDA CFR 21 material inside: NBR white

	operating pressure max.	part no.
DN 25 outer Ø 37 mm	16 bar	10-001 10 022
DN 38 outer Ø 51 mm	16 bar	10-001 10 023

Hoses with inliner

for use with swaged hose fittings

- universal hose**, electrically conductive Ω to EN 12115:2011 material inside: fluoropolymer THV seamless

	operating pressure max.	part no.
DN 21 outer Ø 31 mm	16 bar	10-001 10 838

- hose for food and chemistry**, electrically conductive Ω /T to EN 12115:2011 suitable for food contact according to Regulation (EC) 1935/2004 and FDA CFR 21 material inside: ultra-high molecular PE transparent

	operating pressure max.	part no.
DN 13 outer Ø 22 mm	16 bar	10-001 10 085
DN 19 outer Ø 31 mm	16 bar	10-001 10 037
DN 25 outer Ø 37 mm	16 bar	10-001 10 030
DN 32 outer Ø 43 mm	16 bar	10-001 10 036
DN 38 outer Ø 51 mm	16 bar	10-001 10 086

- PTFE hose**, electrically conductive Ω /T-type acc. to EN 12115 suitable for food contact according to Regulation (EC) 1935/2004 and 10/2001 and FDA material inside: PTFE

	operating pressure max.	part no.
DN 19 outer Ø 31 mm	16 bar	10-001 10 892
DN 25 outer Ø 37 mm	16 bar	10-001 10 893

Stepless 1-ear hose clip

in stainless steel 316 Ti for use with hose connection

- for **PVC hose**

	outer Ø	part no.
DN 13	18 mm	10-959 13 237
DN 19	27 mm	10-959 13 241
DN 25	34 mm	10-959 13 243

Accessories

for drum and container pumps, series 400

FES fume glands and accessories control emission of dangerous vapours from drums and IBC

Consisting of valve part and threaded ring

(please order both parts for a complete unit)

- valve part PP** (polypropylene), with FKM O-ring, with G 1/4" female connection for hose nozzle

pump Ø	part no.
25 mm	10-001 14 309
32 mm	10-001 14 313
40 mm	10-001 14 181
41 mm	10-001 14 182
50 mm	10-001 14 243

valve part with ball valve

- threaded ring PP** (polypropylene) with FKM flat seal

pump Ø	thread connection	part no.
25/32/40/41 mm	G 2" B male	10-001 14 218
25/32/40/41 mm	CCS 57 x 4 male thread	10-001 14 224
25/32/40/41 mm	CCS 60 x 6 female thread	10-001 14 228
25/32/40/41 mm	CCS 70 x 6 female thread	10-001 14 226
25/32/40/41 mm	CCS 70 x 6 male thread	10-001 14 232
25/32/40/41 mm	BCS 70 x 6 (with O-ring) male thread	10-001 14 236
50 mm	G 2" B male	10-001 14 238
50 mm	CCS 70 x 6 male thread	10-001 14 267
40/41 mm	CCS 64 x 5 male thread	10-001 14 230

- valve part S** (stainless steel), with FEP O-ring with G 3/8" female connection - for use in ATEX areas

pump Ø	part no.
28 mm (FKM O-ring)	10-001 14 319
41 mm	10-001 14 192
41 mm with gas compensation connector DN 10	10-001 14 194
50 mm	10-001 14 253
50 mm with gas compensation connector DN 10	10-001 14 245

valve part with 3/8" BSPPF gas compensation connector

- threaded ring S** (stainless steel), with PE flat seal - for use in ATEX areas

pump Ø	nominal Ø	part no.
28/41 mm	G 2" male	10-001 14 325
28/41 mm	S 57 x 4 male thread	10-001 14 329
50 mm	G 2" male	10-001 14 331

- threaded ring MS** (brass), with PE flat seal - for use in ATEX areas

pump Ø	nominal Ø	part no.
41 mm	G 2" male	10-001 14 327

Accessories for additional use of a gas compensation connector

- hose nozzle** (PP) for valve part PP, DN 10 - G 1/4" male

part no.
10-959 13 128

- PE corrugated hose** for gas compensation

part no.
DN 10, outer Ø 13 mm 10-001 10 061

- EPDM compressed air hose** for gas compensation

part no.
DN 10 electrically conductive, outer Ø 17.5 mm 10-001 10 913

- fume cone** (polypropylene, electrically conductive) for hand nozzle with outlet DN 10

part no.
for longer outlet tube Ø 20 mm 10-001 14 285
for outlet Ø 24 mm 10-001 14 296

Compression gland – secure pump into drum or IBC

material	pump Ø	connection	part no.
polyethylene	41 mm	57 x 4 male thread	10-001 14 067
polyethylene	41 mm	70 x 6 male thread	10-001 14 065
polyethylene	50 mm	70 x 6 male thread	10-001 14 066
polypropylene	40/41 mm	R 2 male, electrically conductive	10-001 14 054
polypropylene	50 mm	R 2 male, electrically conductive	10-001 14 062
steel/zinc-plated	40 mm	M 64 x 4 / G 2" male thread	10-001 14 061
steel/zinc-plated	41 mm	M 64 x 4 / G 2" male thread	10-001 14 000
steel/zinc-plated	50 mm	G 2" male thread	10-001 14 003
steel/zinc-plated	50 mm	M 64 x 4 male thread	10-001 14 002

Screw top for IBC – use with G2" male compression gland

connection	part no.
DN 150	10-001 14 063
DN 225	10-001 14 064

Pump inlet suction strainers – for liquids containing solid particles

material	pump Ø	outer Ø	part no.
polypropylene	40/41 mm	53 mm	10-001 10 200
polypropylene	50 mm	60 mm	10-001 10 205
polyvinylidene fluoride	40/41 mm	53 mm	10-001 10 245
polyvinylidene fluoride	50 mm	60 mm	10-001 10 267
stainless steel	41 mm	53 mm	10-001 10 209
stainless steel	43 mm (for FP 424 S-43/38 and -43/37Z)	53 mm	10-001 10 294
stainless steel	50 mm	59 mm	10-001 10 212

Discharge spout

with union nut G 1 1/4" female – to suit drum pump outlet

material	nominal Ø	part no.
stainless steel (S)	DN 25	10-959 07 007
polypropylene (PP)	DN 19	10-959 07 009

Quick action coupling SSK 400

use where quick or frequent disassembly of pump and motor is required

	part no.
complete	10-001 10 802
threaded ring (motor)	10-001 10 800
clamping element (pump)	10-001 10 804

Accessories

for drum and container pumps, series 400

Attachment clamps

- **wall brackets** in stainless steel 1.4301, with screws for fixing

	part no.
for drum and container pumps	10-001 10 426

- **attachment clamp**, material: steel zinc-plated, polypropylene

for pump Ø	part no.
40/41 mm	10-001 10 601
50 mm	10-001 10 603

- **container clip**, stainless steel 1.4301, rilsan-coated

for pump Ø	part no.
40/41 mm	10-001 15 005
50 mm	10-001 15 006

Tools

	part no.
jointed hood-wrench for fume glands , 60-90 mm, for capstan nuts DIN 1816, stud Ø 5mm	10-961 42 500
key for coupling star	10-961 40 889

Mixing tubes

for drum pumps instead of the outer tube for dedicated mixing applications in drums or IBCs

- for F 430 AL-4 1/38

immersion length	part no.
700 mm	10-430 11 192
1.000 mm	10-430 11 193
1.200 mm	10-430 11 194

- for F 430 S-4 1/38 (not allowed in hazardous areas)

immersion length	part no.
700 mm	10-430 21 192
1.000 mm	10-430 21 193
1.200 mm	10-430 21 194

- for F 430 PP-40/33

immersion length	part no.
700 mm	10-430 41 192
1.000 mm	10-430 41 193
1.200 mm	10-430 41 194

F 400

Non-return valves

- stainless steel, seal FKM for mounting onto pump discharge

for pumps	part no.
FP 424 - F 430 G 1 1/4 - G 1 1/4 A	10-959 14 024
3/4" on both sides	10-959 14 022

- stainless steel, seal PTFE

connection	part no.
G 1 1/4 - G 1 1/4 A	10-959 14 048
G 1 on both sides	10-959 14 047

- polypropylene, FKM seal, for mounting onto pump foot

for pumps	part no.
F 430 PP-40/33	10-959 14 029
F 430 PP-40/33Z	10-959 14 030

- polyvinylidene fluoride, FKM seal, for mounting onto pump foot

for pumps	part no.
F 430 PVDF-40/33	10-959 14 038
F 430 PVDF-40/33Z	10-959 14 039

Accessories

for drum and container pumps (series 400) in FOOD version

Accessories for drum and container pumps in FOOD version

suitable for food contact according to Regulation (EC) 1935/2004 and FDA CFR 21

• hose connections

material: stainless steel 316 Ti, pump connection clamp 1½"

nominal Ø	seal	part no.
DN 19	FKM	10-959 04 171

Drive motors and accessories

Compressed-air motors F 416 Ex for drum and container pumps

470 watt at 6 bar, 14 liter/sec. air consumption, for applications in Zone 1, Ex-marking II 2G Ex h IIC T6 Gb. Require dry, clean, lubricated air.

- **F 416 Ex**

	part no.
with operating valve (adjustable and lockable)	10-416 00 100

- **F 416-1 Ex**

	part no.
no valve, for automatic control	10-416 00 020

- **F 416-2 Ex**

	part no.
with ball valve, to regulate speed	10-416 00 030

Accessories for compressed-air motors F 416 Ex

- **filter-regulator-lubricator unit G 1/4" female connection**

	part no.
for non hazardous areas	10-001 10 100
explosion-proof	10-001 10 113

- **compressed-air hose**

	part no.
DN 10, electrically conductive, EPDM, blue, outer Ø 17 mm	10-001 10 098

- **hose coupling with hose connection in brass**

	part no.
DN 10	10-959 13 066

- **coupling in brass**

	part no.
DN 7,2 - G 1/4" male	10-959 13 210

- **threaded nipple in brass for hose coupling**

	part no.
DN 10, G 1/4" male	10-959 13 065

- **hose nozzle (brass)**

	part no.
DN 10, G 1/4" male	10-959 05 022

- **plug-in sleeve in brass**

	part no.
DN 10	10-959 13 209

- **1-ear hose clip**

	part no.
Ø 14,8; clamping range 8-18 mm	10-959 13 237

- **earth wire with crocodile clip**

	cable cross-section	depth	clamp	part no.
spiral cable (yellow)	3 mm ²	4 m	stainless steel	10-931 90 023
cable (green/yellow)	4 mm ²	2 m	steel	10-931 90 015

- **fine filter sound absorber with oil separator**

	part no.
complete with mounting bracket	10-947 15 005

- **exhaust air hose kit for compressed-air motors F 416**
PVC hose DN13, 5 m long

	part no.
connections G 1/2 - G 1/2 A (both male threads) for compressed-air motors F 416 with additional fine filter silencer with oil separator	10-001 10 886

further accessories for drive motors can be found in our detailed FLUX Accessories brochure.

Accessories for flow meter

- **impulse cable** for FMO 104 / FMO 110 version without digital display
2-core, both sides with wire sleeves, insulated to transmit control signal
from FMO reed-relais to the external digital display FLUXTRONIC®

	part no.
5 m long	10-934 08 032
10 m long	10-934 08 033
15 m long	10-934 08 034

- **connecting cable, shielded** for FMC / FMO to extend the impulse cable

	part no.
5 m long with plug and coupling	10-934 08 039

- **external digital display FLUXTRONIC®**

	part no.
with wall mounting flange, without cable	10-001 42 113

- **clear protection cover for FLUXTRONIC® display**

for	part no.
FMJ	10-001 42 101
FMC/FMO	10-001 42 121

- **earth wire** for FMC PP and FMC ETFE to produce a conductive connection of
hose connection and motor

	part no.
1 m long	10-931 90 009

- **switching amplifier FSV 100**

		part no.
can be integrated into flow meter, 2 signals, with power supply cable, 5 m long	230 V, 50 – 60 Hz, IP 44, 4A	10-001 49 040
connecting cable for magnetic valve	5 m long	10-934 08 036
connecting cable for motor	0,5 m long	10-934 08 035

- **power supply cable** for FSV 100

	part no.
5 m long, without plug	10-934 08 047

- **connecting cable** to motor for FSV 100

	part no.
0,5 m long, without coupling	10-934 08 057

- **connecting cable** to FLUXTRONIC® FSV 100

	part no.
5 m long, 5 core, sleeve for strands on both ends	10-934 08 030
10 m long, 5 core, sleeve for strands on both ends	10-934 08 031

- **assembly output assignment FMC/FMO**

	part no.
	10-000 00 251

- **Platine with Hall-sensor for wear-free measurement, for FMO 104 - 150,**
not suitable for use in hazardous areas

	part no.
	10-A06 04 919

Switching amplifier with Ex input for use out of the hazardous areas

- switching amplifier FSV 132

		part no.
for installation in switch box	2 signals, 230 V, 50 – 60 Hz, IP 20, AC - 4A, DC - 2A Ex-marking: II (1) G [Ex ia Ga] IIC	10-940 04 020
5-core control cable for the connection of flow meter or FAE	5 m long	10-934 08 038
	10 m long	10-934 08 040
	15 m long	10-934 08 041

- switching amplifier FSV 133 Ex (only for transferring impulse)

		part no.
for installation in switch box	1 signal, Ex i entry acc. to EN 60947-5-6, electronic exit 30 V DC/50 mA Ex-marking: II 3 (1) G Ex nAc nCc [ia] IIC T4	10-940 04 043
5-core control cable for the connection of flow meter or FAE	5 m long	10-934 08 038
	10 m long	10-934 08 040
	15 m long	10-934 08 041

Switching amplifier in Ex-version, Zone 1

- switching amplifier FSV 121 Ex

		part no.
for wall mounting with miniCLIX plug connections for network connection cable, with control cable 5 m long	1 signal, 230 V, 50 Hz, 4 A, IP 66 Ex-marking: II 2 G db eb [ia Ga] IIC T6 Gb	10-001 49 051
power supply cable	5 m long, with plug-in	10-934 08 062
connection cable to motor	5 m long	10-934 08 049

- switching amplifier FSV 121-1/2 Ex

		part no.
for wall mounting, without plug-ins and control cable	121-1: 1 signal 230 V, 50 Hz, 4A, IP 66, Ex-marking: II 2(1) G Ex db eb [ia Ga] IIC T6 Gb	10-001 49 039
	121-2, 2 signals 230 V, 50 Hz, 4A, IP 66, Ex-marking: II 2(1) G Ex db eb [ia Ga] IIC T6 Gb	10-001 49 063
control cable for the connection of flow meter or FAE	5 m long	10-934 08 038
	10 m long	10-934 08 040
	15 m long	10-934 08 041

For your notes

Centrifugal immersion pumps (600 and 700 series)

Centrifugal immersion pumps

with mechanical seal

Centrifugal immersion pumps F 620 in stainless steel, with mechanical seal, seal material FKM, with open conical rotor in polypropylene, discharge connection G 1½" male

- F 620 S-15**

nominal length	conical rotor Ø	part no.
700 mm	15 mm	10-620 23 001
1.000 mm	15 mm	10-620 23 002
1.500 mm	15 mm	10-620 23 003
additional cost for stainless steel conical rotor		10-620 24 030

- F 620 S-30**

nominal length	conical rotor Ø	part no.
700 mm	30 mm	10-621 23 001
1.000 mm	30 mm	10-621 23 002
1.500 mm	30 mm	10-621 23 003
additional cost for stainless steel conical rotor		10-621 24 005

Other lengths up to 3.000 mm available on request

- mounting flange** in stainless steel

mounting dimensions (bottom mounting flange to bottom pump) is reduced at least by 100 mm compared to the specified nominal

	part no.
outer Ø 265 mm, PCD Ø 225 mm, 8 holes Ø 18 mm	10-947 14 005

- suction strainer**, in stainless steel for:

	part no.
F 620 S-15, F 620 S-30	10-001 10 232

F 620 S-30
with suction strainer

Centrifugal immersion pumps F 620 in stainless steel with mechanical seal, seal material FKM, closed impeller Ø 157 mm in stainless steel, discharge connection G 1½" male

- F 620 S-157/3**

nominal length	impeller height	part no.
1.200 mm	3 mm	10-620 20 012

- F 620 S-157/5**

nominal length	impeller height	part no.
1.200 mm	5 mm	10-620 20 112

Other lengths up to 3.000 mm and versions for AdBlue® * available on request

Centrifugal immersion pump F 640 in polypropylene, with mechanical seal, seal material FKM, with open conical rotor or closed impeller in polypropylene, discharge connection G 2¼" male

- F 640 PP-15 (with conical rotor)**

nominal length	part no.
700 mm	10-640 41 407
1.000 mm	10-640 41 410
1.500 mm	10-640 41 415

- F 640 PP-30 (with conical rotor)**

nominal length	part no.
700 mm	10-640 41 607
1.000 mm	10-640 41 610
1.500 mm	10-640 41 615

- F 640 PP-15 Z (with impeller for increased pumping head)**

nominal length	part no.
700 mm	10-640 41 507
1.000 mm	10-640 41 510
1.500 mm	10-640 41 515

- F 640 PP-30 Z (with impeller for increased pumping head)**

nominal length	part no.
700 mm	10-640 41 707
1.000 mm	10-640 41 710
1.500 mm	10-640 41 715

F 640 PP-30
with suction strainer

Other lengths up to 4.000 mm available on request

* AdBlue® is a registered trademark of: Verband der Automobilindustrie e. V. (VDA)

- **mounting flange** in polypropylene
mounting dimensions (bottom mounting flange to bottom pump) is reduced at least by 100 mm compared to the specified nominal

	part no.
outer Ø 265 mm, LK Ø 225 mm, 8 holes Ø 18 mm	10-947 14 001

- **suction strainer** in polypropylene for:

	part no.
F 640 PP-15, F 640 PP-30, F 640 PP-15Z, F 640 PP-30Z A	10-001 10 235

Drive motors see page 78

Centrifugal immersion pump F 640 with mechanical seal, seal material FKM, discharge connection G 2 1/4" male, without mounting flange

- **F 640 PP-185** in polypropylene, with closed polypropylene impeller*

nominal length	housing Ø	part no.
700 mm	185 mm	10-640 41 207
1.000 mm	185 mm	10-640 41 210
1.500 mm	185 mm	10-640 41 215

- **F 640 PVDF-185** in polyvinylidene fluoride, with closed polyvinylidene fluoride impeller*

nominal length	housing Ø	part no.
700 mm	185 mm	10-640 61 207
1.000 mm	185 mm	10-640 61 210
1.500 mm	185 mm	10-640 61 215

- **F 640 PP-230** in polypropylene with closed polypropylene impeller*

nominal length	housing Ø	part no.
700 mm	230 mm	10-640 41 307
1.000 mm	230 mm	10-640 41 310
1.500 mm	230 mm	10-640 41 315

- **F 640 PVDF-230** in polyvinylidene fluoride with closed polyvinylidene fluoride impeller*

nominal length	housing Ø	part no.
700 mm	230 mm	10-640 61 307
1.000 mm	230 mm	10-640 61 310
1.500 mm	230 mm	10-640 61 315

* in order to achieve the desired output, centrifugal impellers in diameters of 100 to 140 mm (for housing Ø 185) and 130 to 160 mm (for housing Ø 230) are available

other lengths up to 4.100 mm and versions for AdBlue® ** available on request

Accessories for centrifugal immersion pumps F 640

- **mounting flange polypropylene**

mounting dimensions (bottom mounting flange to bottom pump) is reduced at least by 100 mm compared to the specified nominal

	part no.
outer Ø 340 mm, PCD Ø 295 mm, 4 holes Ø 22 mm	10-947 14 049
outer Ø 445 mm, PCD Ø 400 mm, 6 holes Ø 22 mm	10-947 14 084

- **mounting flange polyvinylidene fluoride**

mounting dimensions (bottom mounting flange to bottom pump) is reduced at least by 100 mm compared to the specified nominal

	part no.
outer Ø 340 mm, PCD Ø 295 mm, 4 holes Ø 22 mm	10-947 14 070
outer Ø 445 mm, PCD Ø 400 mm, 6 holes Ø 22 mm	10-947 14 085

- **suction strainer** welded to the lid of the pump housing:

pump	material	part no.

base plate (polypropylene)	10-001 15 023

Drive motors see below

Hose connections for centrifugal immersion pumps F 620 and F 640

- **stainless steel**, with union nut G 1½" female

	part no.
DN 25	10-959 04 002
DN 32	10-959 04 003
DN 38	10-959 04 004

- **polypropylene**, with union nut G 2¼" female

	part no.
DN 32	10-959 04 098
DN 38	10-959 04 099
DN 50	10-959 04 100

- **polyvinylidene fluoride**, with union nut G 2¼" female

	part no.
DN 38	10-959 04 105
DN 50	10-959 04 096

Hoses see drum pump accessories on page 31

Drive motors for centrifugal immersion pumps F 620 and F 640

- **Three-phase motor**, 50 Hz, jet-proof to IP 55, **with motor protection switch**, IE3, 3.000 rpm

	part no.
0,75 kW, 230 / 400 V	10-001 03 429
1,5 kW, 230 / 400 V	10-001 03 433
2,2 kW, 230 / 400 V	10-001 03 435
3,0 kW, 400 V	10-001 03 437
4,0 kW, 400 V	10-001 03 439

- **Three-phase motor**, 50 Hz, jet-proof to IP 55, **with cable terminal box**, IE3, 3.000 rpm

	part no.
0,75 kW, 230 / 400 V	10-001 03 422
1,5 kW, 230 / 400 V	10-001 03 432
2,2 kW, 230 / 400 V	10-001 03 434
3,0 kW, 400 / 690 V	10-001 03 436
4,0 kW, 400 / 690 V	10-001 03 438
5,5 kW, 400 / 690 V (for 700 series only)	10-001 03 440

F 640 PP-230 TR
with base plate

Accessories for three-phase motors

- **carrying handle** for motor flange Ø 160, mounting with 2 lugs for 3-phase motors up to size 90 and max. 20 kg

	part no.
standard version	10-001 10 531
with mounting for Ex motor protection switch	10-001 10 588

- **power supply cable**

	part no.
pre-assembled with sleeve and Cekon plug, 5 m long	10-934 08 020
pre-assembled with sleeve without plug, 5 m long	10-934 08 025
per meter	10-934 08 901
electrical mounting three-phase motor	10-Z05 00 DKS

- **cekon-plug**

	part no.
5-poles	10-937 01 014

- **motor protection switch**, protection category IP 65, with 2 cable inlet ports, for mounting onto the motor

adjustment range	part no.
1,30 – 2,00 A	10-936 06 168
1,80 – 3,00 A	10-936 06 169
2,80 – 4,60 A	10-936 06 170
4,20 – 6,70 A	10-936 06 171
6,50 – 10,00 A	10-936 06 172
10,00 – 16,00 A	10-936 06 173

Centrifugal immersion pumps

sealless

Sealless centrifugal immersion pumps F 706 / F 716 / F 726 for continuous use

available in following materials:

polypropylene (PP): F 706 / F 716 / F 726

polyvinylidene fluoride (PVDF): F 716 / F 726

Special features and benefits type F 716 and F 726:

- each pump is determined to the required duty point
- for continuous use
- immersion lengths up to 1.000 mm. The immersion length of the pump can be extended up to 1.500 mm maximum by the suction tube option.
- F 716 / F 726 safe to run dry. With free-flying shaft for very low wear. There is no need for an additional bearing carrier.

Drive motors:

As drive motors three-phase motors are available from 0,37 to 5,5 kW, jet-proof to IP 55

Air-operated diaphragm pumps

(RFM and FDM series)

Air-operated diaphragm pumps

General terms and conditions

GENERAL TERMS AND CONDITIONS OF SALE

of FLUX-GERÄTE GMBH

§ 1 General, scope

(1) All supplies and services FLUX-GERÄTE GMBH are made exclusively at the following delivery and payment conditions (hereinafter also referred to as "terms of sale"). Terms and conditions of the customer that contradict or diverge from our terms of sale are herewith expressly excluded. FLUX-GERÄTE GMBH is only bound by such terms and conditions if FLUX-GERÄTE GMBH has acknowledged them in writing. Our terms of sale still apply even if we carry out the delivery to the customer without any reservation in the knowledge that the terms and conditions of the customer contradict or diverge from our terms of sale.

(2) In placing the order and accepting the goods delivered by us, the customer confirms its agreement with our terms and conditions. The storage and processing of the data of our customers is computerized to the extent that this is necessary for the due processing of the business relationship.

(3) All arrangements made between the customer and ourselves for the purpose of executing an agreement are set forth in said agreement.

(4) Our terms of sale only apply to companies as defined by Article 310 (1) BGB [Bürgerliches Gesetzbuch: German Civil Code].

§ 2 Offers and deliveries

(1) Our offers are generally valid for a limited period of time. If the order of the customer qualifies as an offer in accordance with Article 145 BGB, we can accept it within two weeks. The order is accepted by the order confirmation of FLUX-GERÄTE GMBH which forms the basis of the contractual agreement and determines the scope of the delivery.

(2) In the case of offers which are limited in time and which allow a certain period of time for acceptance, the offer is decisive if no order confirmation is issued within the period allowed. Side agreements and amendments must be confirmed by us in writing.

(3) We reserve the right to make design changes and other changes to technical data and specifications to the extent that these represent technical improvements and are deemed to be reasonably acceptable for the customer.

(4) Documents such as drawings, samples and the like provided to FLUX-GERÄTE GMBH as attachments to the request for an offer or the order remain the property of the customer. They form the binding basis for the preparation and elaboration of the offer by FLUX-GERÄTE GMBH. When placing orders, the customer must make written reference to any subsequent changes compared to the initial request for an offer and the offer by FLUX-GERÄTE GMBH. If FLUX-GERÄTE GMBH attaches similar documents to its offers in the way described above, these are and remain the property of FLUX-GERÄTE GMBH. The customer agrees not to use these documents for purposes not governed by the agreement, to duplicate them or to otherwise make them accessible to third parties. Obvious errors, printing, arithmetical, typing and calculation errors are not binding for FLUX-GERÄTE GMBH and do not entitle the customer to claim damages or compensation.

§ 3 Prices and payment

(1) Unless otherwise agreed in the order confirmation, the prices are ex works "Maulbronn", excluding costs of shipping and packaging; these will be invoiced separately.

(2) The delivery is made at the price stated in the offer of FLUX-GERÄTE GMBH or in the order confirmation in accordance with § 2 above.

(3) The invoice amount is due within 14 days of the invoice date with 2 % discount, or net within 30 days. Invoices for repairs are due immediately for payment, without deductions. The 2 % discount is not granted if other receivables are overdue. If payment periods are exceeded, we reserve the right to claim damages for delayed payment of 8 % above the base interest rate. For orders for goods with a net value of less than EUR 40 we charge a minimum quantity surcharge up to this net value.

(4) Payments can only be withheld or offset against any counterclaims if the counterclaims of the customer are undisputed, acknowledged and legally enforceable.

§ 4 Delivery period, delivery not possible, delays

(1) The delivery period begins as of the date of the order confirmation. However, this only applies if all the technical details have been clarified at this point in time.

(2) Compliance with our delivery obligation also presupposes that the customer satisfies its obligations punctually and properly. We reserve the right to make a plea of non-performance.

The delivery period is as agreed between the contractual parties. For FLUX-GERÄTE GMBH to keep the delivery date, all commercial and technical questions must have been clarified between the contractual parties and the customer must have fulfilled all its responsibilities, e.g. such as providing the necessary official certifications or permits or payment of a down-payment. If this is not the case, the delivery period is prolonged accordingly. This does not apply if FLUX-GERÄTE GMBH is responsible for the delay.

(3) Keeping the delivery period is also subject to the condition that FLUX-GERÄTE GMBH receives its own deliveries on time. FLUX-GERÄTE GMBH will immediately announce any indication of possible delays.

(4) The delivery period is deemed to have been kept if the item being delivered has left the plant of FLUX-GERÄTE GMBH in Maulbronn before the end of the delivery period or the customer has been notified that the item is ready for shipment. If the products have to be inspected and accepted, the inspection date is decisive, unless there are reasonable grounds to reject acceptance; alternatively, notification that the products are ready for inspection is deemed to be decisive.

(5) If the shipment or inspection of the products being delivered is delayed for reasons caused by the customer, the costs caused by the delay will be charged to the customer starting one month after notification that the products are ready for shipment or inspection.

(6) If the failure to keep the delivery period is due to force majeure, labor disputes or other events which are beyond the control of FLUX-GERÄTE GMBH, the delivery period is extended accordingly. FLUX-GERÄTE GMBH will inform the customer about the beginning and end of such events as soon as reasonably possible.

(7) The customer can withdraw from the contract without notice if circumstances render performance impossible for FLUX-GERÄTE GMBH before the transfer of risk. The customer can also withdraw from the contract if execution of part of a delivery is impossible and the customer has a legitimate interest in rejecting partial delivery. If this is not the case, the customer must pay that part of the contractually agreed price that relates to the partial delivery. The same applies if FLUX-GERÄTE GMBH is unable to execute the contract. §§ 7-9 apply by analogy.

(8) If the customer is in default of acceptance or if it violates any other duty to cooperate, we are entitled to claim compensation for any loss that we have sustained as a result, including any additional expenses that have been incurred. Further claims and rights are reserved.

(9) Provided the prerequisites of (4) are in place, the risk of accidental loss or the accidental deterioration of the purchased goods is transferred to the customer at the point in time when the customer is in default of acceptance or payment.

(10) We are liable in accordance with the legal provisions to the extent that the underlying purchase agreement contains a fixed date of delivery in accordance with Article 286 (2) No. 4 BGB or Section 376 HGB [Handelsgesetzbuch: German Commercial Code]. We are also liable in accordance with the legal provisions if the customer is entitled on account of a delay in delivery for which we are responsible to claim that its interest in executing the contract has lapsed.

(11) We are also liable in accordance with the legal provisions if the delay in delivery is due to the willful or gross negligent breach of contract by us; if our representatives or agents are responsible, the liability lies with us. If the delay in delivery is due to a gross negligent breach of contract by us, our liability for damages is limited to foreseeable losses that typically occur in such cases.

(12) We are also liable in accordance with the legal provisions if the delay in delivery for which we are responsible is due to the culpable infringement of a significant contractual duty; in this case, our liability for damages is limited to foreseeable losses that typically occur.

(13) In the case of a delay in delivery, we are liable for every full week of delay in the form of a lump-sum compensation for delay equivalent to 0.5 % of the value of the goods being delivered per week, but not more than 10% of the total value of the goods being delivered. If FLUX-GERÄTE GMBH is in default with the delivery, the customer is entitled to grant FLUX-GERÄTE GMBH by written declaration an additional period for delivery of at least another four weeks, beginning from the receipt of the written declaration. If this additional term expires without success, the customer is entitled to withdraw from the contract.

(14) This does not affect other legal claims and rights of the customer.

§ 5 Transfer of risk

(1) The risk is transferred to the customer when the goods being delivered leave the plant, even if part deliveries have been made or FLUX-GERÄTE GMBH has agreed to provide other services, e.g. shipping costs or delivery and installation. Where an inspection is necessary, this is decisive for the transfer of risk. It must be carried out immediately as of the inspection date, alternatively after FLUX-GERÄTE GMBH notifies the customer that the goods are ready for inspection. The customer may only refuse to accept the goods after inspection if there is a significant defect.

(2) If shipment or inspection is delayed or does not take place due to circumstances that are beyond the control of FLUX-GERÄTE GMBH, the risk is transferred to the customer from the day on which the customer is notified that the goods are ready for shipping or inspection. FLUX-GERÄTE GMBH agrees at the expense of the customer to take out any insurance the customer may demand.

(3) Partial deliveries are permissible to the extent that the deliveries can be split and partial deliveries are deemed to be reasonably acceptable for the customer.

(4) At the customer's request, we will take out transport insurance to cover the delivery; any costs incurred for this are borne by the customer.

§ 6 Retention of title

(1) The delivered goods remain our property until all current and future receivables from the business relationship with the customer have been paid, regardless of the legal grounds.

If the customer contravenes the contractual arrangements, including but not limited to default of payment, we are entitled to take back the goods that have been delivered. An application for the opening of insolvency protection proceedings entitles FLUX-GERÄTE GMBH to withdraw from the contract and to demand that the delivered goods be returned immediately. The repossession of the purchased goods by FLUX-GERÄTE GMBH constitutes a withdrawal from the contract. After repossession the purchased goods, FLUX-GERÄTE GMBH is authorized to sell the goods, the proceeds of which are to be offset against the liabilities of customer, less reasonable selling costs.

(2) In the event of attachments or other interventions of third parties, the customer must inform us immediately in writing so that we can institute proceedings in accordance with Section 771 ZPO (Zivilprozessordnung: German Code of Civil Procedure). If the third party is not able to reimburse the costs of litigation incurred in and out of court, the customer is liable for any losses we may incur.

(3) The customer is authorized to resell the delivered goods in the course of ordinary business, but on a revocable basis. The customer assigns to us all receivables up to the final invoice amount (including value added tax) of our receivable which are due to the customer from the resale from its customers or third parties, regardless of whether the purchased item is resold without or after processing. The assigned receivables act as security for all claims in accordance with paragraph 1 above. At our request, the customer is obliged to inform us of the assignment to third parties for the purpose of payment to us and to provide us with the necessary information and documents that we need to enforce our rights.

(4) The customer may neither sell the delivered goods, pledge them nor offer them as collateral. In the event of attachments or confiscation or other orders by third parties, the customer must inform FLUX-GERÄTE GMBH immediately.

§ 7 Warranty claims

(1) The warranty claims of the customer require that its statutory obligations in accordance with Section 377 HGB to examine the goods and to give notice of defects have been duly fulfilled.

(2) If the purchased item exhibits a defect, the customer is entitled to supplementary performance and can choose between remedying the defect or the supply of a new, defect-free item. In the event of a remedy of the defect or a new delivery, we are obliged to bear all expenses involved in the supplementary performance, including but not limited to transport and travel expenses, labor and material costs, provided these are not increased by the circumstance that the purchased item has been relocated to a place other than the place of performance.

(3) If the supplementary performance fails, the customer can demand either withdrawal from the contract or a price reduction.

§ 8 Liability

(1) We are liable in accordance with the legal provisions if the customer claims damages due to the willful or gross negligent breach of contract by us or our representatives or agents. Unless we are accused of a willful breach of contract, our liability for damages is limited to foreseeable losses that typically occur in such cases.

(2) We are also liable in accordance with the legal provisions if we culpably infringe a cardinal obligation; in this case, our liability for damages is, however, again limited to foreseeable losses that typically occur. A contractual duty is deemed to be a cardinal obligation if the breach of duty relates to a duty which the customer relied on to be performed and was justified in relying thereon.

(3) To the extent that the customer is entitled to damages instead of the performance, our liability – also in the context of § 7 (3) – is limited to foreseeable losses that typically occur.

(4) If the delivered goods cannot be used in accordance with the contract through the fault of FLUX-GERÄTE GMBH as a result of suggestions and advice given before or after the contract was concluded not being implemented or being wrongly implemented or through the infringement of other contractually agreed secondary obligations – including but not limited to instructions for the operation and maintenance of the delivered goods – the rulings of §§ 8 et seq. apply by analogy, excluding further claims of the customer.

(5) We assume no liability for damage caused for the following reasons: unsuitable or incorrect use or storage, incorrect assembly/installation by the customer or third party, unauthorized repair attempts and modifications, natural wear and tear, faulty or careless handling, etc. on which we have no influence, as well as in the case of improper usage and non-compliance with our instructions for use. For safety reasons, products intended to be used in hazardous areas may only be opened and repaired by FLUX-GERÄTE GMBH or by a service partner authorized by FLUX-GERÄTE GMBH.

(6) In the absence of any provisions to the contrary above, liability shall be excluded.

(7) Warranty claims become statute barred after 12 months, beginning upon transfer of risk.

(8) In the event of a delivery recourse in accordance with Articles 478, 479 BGB, the statute of limitations remains unaffected; it is five years from the delivery of the deficient goods.

§ 9 Joint liability

(1) Liability for compensation for damages which goes beyond that envisaged under § 8 is excluded, regardless of the nature of the claim being asserted. This applies in particular to claims for damages arising from faults upon conclusion of contract, on account of other breaches of duty or on account of tort claims to compensation for property damages according to Article 823 BGB.

(2) The limitation as described under paragraph (1) above also applies if the customer demands reimbursement of needless expense instead of making a claim for compensation.

(3) If liability for compensation for damages against us is excluded or limited, this shall also apply with respect to the personal liability for damages of our employees, workers, co-workers, representatives, and agents.

§ 10 Secrecy

The customer is required to treat all information, know-how and other business secrets obtained in connection with the execution of each contract with strict confidentiality and is not permitted without the express approval of FLUX-GERÄTE GMBH to pass on any information, documents, documentation, drawings, sketches or other materials to third parties or otherwise to make such materials accessible. FLUX-GERÄTE GMBH also treats the documents of customers confidentially.

§ 11 Court of competent jurisdiction – place of performance

(1) For commercial customers, our registered office is the court of competent jurisdiction; we are, however, also entitled to sue the customer at the court competent for its place of domicile.

(2) The law of the Federal Republic of Germany applies; application of the United Nations Convention on Contracts for the International Sale of Goods (UN Purchasing Convention) is excluded.

(3) Unless otherwise stipulated in the order confirmation, our registered office is the place of performance.

More than just pumps

FLUX is a world renowned brand for the highest standards in pump technology. It all began in 1950 with the invention of the electric drum pump. Today, FLUX offers a wide range of products which can be configured individually. For example, FLUX pumps are used in the chemical and pharmaceutical industries, in machine and plant construction, as well as in electroplating, sewage treatment plants, and the food industry.

Whether as a stand-alone or a system solution, FLUX quality means long useful life, excellent economic efficiency and a maximum of safety.

Apart from the outstanding FLUX product quality and reliability, our clients appreciate the expertise and dedication of our employees to customer service.

Today, FLUX-GERÄTE GMBH supplies pumps to almost one hundred countries world wide.
